SOFTWARE USAGE AGREEMENT
FOR
Government Purposes Only - Intra-NASA Release
of
NASA Ames Research Center SOFTWARE

_____

(Name of NASA Center, Department/Division, Project)
(hereinafter RECIPIENT) has requested that the United States Government as represented by the National Aeronautics and Space Administration, Ames Research Center , located at Moffett Field, California 94035-1000 (hereinafter NASA), release the following computer software:

Name of Software to be released: Chimera Grid Tools software package, version 2.0

NASA Technology Number: ARC-16025-1 (hereinafter SOFTWARE)

Description of Software: Chimera Grid Tools (CGT) is a software package that contains a collection of tools for performing computational flow simulation pre- and post-processing.

Additional information about the software is located at the following web site:
http://www.nas.nasa.gov/~wchan/cgt/doc/man.html

Under separate cover from the Technical Point of Contact, NASA Ames Research Center will provide RECIPIENT any and all computer codes and associated documentation required to implement the SOFTWARE.

Software code to be released: Source, Executable or both

NASA Technical Point of Contact:

Name: William M. Chan   Org Code: TNA
NASA Ames Research Center
Mail Stop: T27B-1
Moffett Field, CA 94035
Phone: 650-604-6607
E-mail: William.M.Chan@nasa.gov

The authority for NASA to release SOFTWARE is NASA Policy Directive (NPD) 2210.1A.

<u>Definitions</u>: For purposes of this Agreement, SOFTWARE is defined as a collection of one or more programs or microprograms fixed in any tangible medium of expression that comprises a sequence of instructions (source code) to carry out a process in, or convertible into, a form executable by an electronic computer (object code). The term "data", as used in this Agreement means recorded information, regardless of form, the media on which it may be recorded, or the method of recording. The term "technical data" is defined as any specific information necessary for the development, production or use of the SOFTWARE. SOFTWARE shall also include documentation, technical data, papers, and reports.

The following restrictions and conditions apply to this release:

1.   This SOFTWARE is not in the public domain and nothing in this Agreement shall be construed as making the SOFTWARE available to the public without restriction. The SOFTWARE shall be used for Government Purposes only. This SOFTWARE may be copied and used by federal government employees and by Government support service contractors of the RECIPIENT. Software is not to be released by the NASA Receiving Center to non-support service Government contractors. This will be done using a NASA Ames Research Center Project Release Software Usage Agreement.

RECIPIENT must retain and reproduce in, or provide with, all copies of the SOFTWARE and any modified versions thereof the following notices:

Chimera Grid Tools, Copyright 2004, 2007 United States Government as represented by the Administrator of the National Aeronautics and Space Administration. No copyright is claimed in the United States under Title 17, U.S. Code. All Other Rights Reserved.

Unique Surface Using Ranked Polygons (USURP) distributed under license by the Pennsylvania State Research Foundation. Portions of USURP created by David Boger are Copyright 2005 The Pennsylvania State University. All Rights Reserved.

This software may be used, copied, and provided to others only as permitted under the terms of the contract or other agreement under which it was acquired from the U.S. Government. If you have received this software for use under a Government Contract, Cooperative Agreement or Grant the software is for federal government research purposes only, and may not be further distributed to third parties. Neither title to nor ownership of the software is hereby transferred. This notice shall remain on all copies of the software.

Disclaimers

This software is provided "as is" without any warranty of any kind, either expressed, implied, or statutory, including, but not limited to, any warranty that the software will conform to specifications, any implied warranties of merchantability, fitness for a particular purpose, or freedom from infringement, any warranty that the software will be error free, or any warranty that documentation, if provided, will conform to the software. In no event shall the U.S. Government, or the U.S. Government's contractors or subcontractors, be liable for any damages, including, but not limited to, direct, indirect, special or consequential damages, arising out of, resulting from, or in any way connected with this software, whether or not based upon warranty, contract, tort, or otherwise, whether or not injury was sustained by persons or property or otherwise, and whether or not loss was sustained from, or arose out of the results of, or use of, the software or services provided hereunder.

Recipient agrees to waive any and all claims against the U.S. Government, and the U.S. Government's contractors and subcontractors, and shall indemnify and hold harmless the U.S. Government, and the U.S. Government's contractors and subcontractors, for any damage that

recipient may incur from recipient's prior or future use of the provided software, including any damages from products based on, or resulting from, the use thereof.

If further release or distribution of this software or technical data derived from this software is permitted, Recipient agrees to obtain this identical disclaimer of warranty agreement and waiver of claims, indemnification and hold harmless agreement with any entities that receive the software or technical data derived from the software.

2.   Other than as specified in clause 1, there shall be no further release, distribution, or publication of the SOFTWARE by RECIPIENT, or its contractors or subcontractors given access to the SOFTWARE, without the express prior written approval of NASA Ames Research Center (ARC).

3.   The SOFTWARE remains the property of NASA. If the SOFTWARE is modified or enhanced, NASA ARC will be provided the complete source code of the modified or enhanced version. There shall be no further release, distribution, or publication of any modified or enhance version of the SOFTWARE without the express prior written approval of NASA Ames Research Center (ARC).

4.   Hold all such disclosed information in confidence, further agreeing not to disclose the SOFTWARE or technical data to others or to use the SOFTWARE or technical data for any purpose without the written permission of the Patent Counsel for NASA Ames Research Center.

Excluded from the foregoing restrictions is information that:
   a. was published, known publicly or otherwise in the public domain prior to the effective date of this agreement;
   b. was known to RECIPIENT prior to the effective date of this agreement, provided that RECIPIENT shall have the burden of establishing such prior knowledge by competent written proof;
   c. subsequent to the effective date of this agreement, is published by NASA, or becomes publicly known, or otherwise becomes part of the public domain through no act or omission of RECIPIENT; or
   d. subsequent to the effective date of this agreement, is made available to RECIPIENT by a third party under no obligation of confidentiality.

5.   NASA ARC shall be neither liable nor responsible for any maintenance or updating of the SOFTWARE, nor for correction of any errors in the SOFTWARE.

6.   The SOFTWARE is intended for domestic use only and shall not be made available to anyone outside of the United States. In addition, within the United States, the SOFTWARE shall not be made available to foreign persons (as defined by 22 CFR §120.16).

Furthermore, the SOFTWARE shall not be provided to any person or entity listed on any "denied parties/persons" list (including the Office of Foreign Assets Control, Specially Designated Nationals and Blocked Persons; Office of Foreign Assets Control, Changes to List of Specially Designated Nationals and Blocked Persons; Office of Defense Trade Controls, List of Debarred Parties; Bureau of Export Administration, List of Denied Persons; Bureau of Export Administration, Entity List).

The SOFTWARE and associated technical data are "software" and "technical data" within the meaning of the Export Administration Regulations (EAR) at 15 CFR Parts 730-774 and depending upon its application, the International Traffic in Arms Regulations (ITAR) 22 CFR 120-130. As such, the SOFTWARE and technical data made available under this Agreement may require an export control license before they are either sent outside of the United States or made available to nationals of a foreign country either within the United States or abroad. Failure to obtain an export control license or to qualify for an applicable export control license exception before making this SOFTWARE or technical data available to a foreign national may subject the undersigned to significant civil and criminal penalties under the Export Administration Act of 1979, 50 U.S.C. app. Sections 24-1-2420, the Arms Export Control Act, 22 USC 2778 and their applicable regulations. For purposes of the export laws, a person who has permanent resident status as defined in 8 USC sections 1101(a)(20), and persons admitted to the United States on the basis of refugee status under 8 USC 1157, 1158 are U.S. persons and not foreign nationals. Similarly, a corporation or other business entity organized under the laws of the United States is a U.S. entity for purposes of the export laws.

RECIPIENT certifies that it is not a foreign person (as defined by 22 CFR §120.16) and is not listed on any of the aforementioned lists.

7.   If the SOFTWARE and/or any documentation provided with the SOFTWARE includes a copyright notice, or other restrictive marking or legend, identifying it as a work of a third party, the third party software or documentation will be governed by the terms and conditions of its copyright, or other restrictive marking.

8.   The restrictions on disclosure and distribution imposed by this Agreement shall apply to any software code developed by RECIPIENT or its contractors or subcontractors given access to the SOFTWARE that incorporates any portion of the SOFTWARE.

9.   RECIPIENT shall inform its employees, contractors and subcontractors given access to the SOFTWARE of the restrictions specified herein.

10.   If RECIPIENT is interested in obtaining cad2srf and srf2cad compiled with CAPRI from CADNexus, please check the following box. RECIPIENT is responsible for obtaining the compiled cad2srf and srf2cad from CADNexus.

☐   By checking this box RECIPIENT hereby gives permission to NASA to inform CADNexus that RECIPIENT is an authorized SOFTWARE RECIPIENT. RECIPIENT shall treat the compiled software from CADNexus as if it had been obtained under this Agreement.

11.   The effective date of this Agreement shall be the date RECIPIENT acknowledges receipt of this Agreement as set forth below.

12.   The RECIPIENT agrees that a facsimile signature shall be valid and have full force and the same effect upon him/herself as original signatures.
